

## Macro Invertebrate Sampling 2015

Equipment ready to go.

The girls were very studious in their classifying.

### Macro Invertebrate Sampling in Year 3

To finish off our amazing Science unit of 'Life and Living' we did some were able to participate in some 'real' science. We were sampling the water from a local wetland to check its health

The boys were being very careful with their samples,

Alyssa and Stella were able to find some non biting midge larvae.

## Macro Invertebrate Sampling Day

Josh uses the branch key to help classify a sample with Seb, Connor and Lochlain.

This is what we used to contain our samples.

Casey is showing us a sample she is about to classify. Daixylle is

EJ, Demi and Jessica found a tadpole.
